SAFE | Sustainable Architecture for Finance in Europe

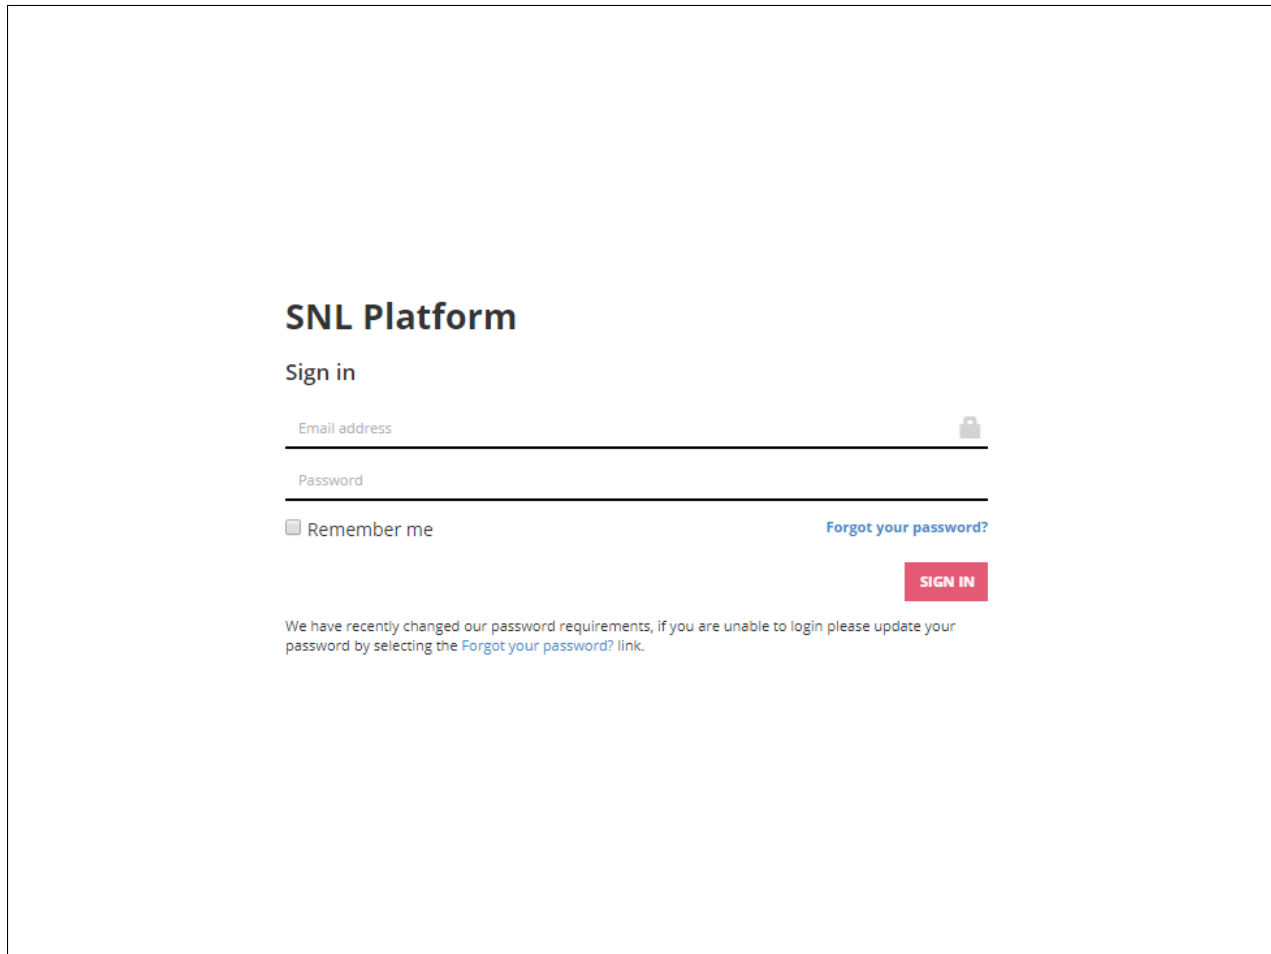

A cooperation of the Center for Financial Studies and Goethe University Frankfurt

House of Finance | Goethe University
Theodor-W.-Adorno-Platz 3 | 60323 Frankfurt am Main

Tel. +49 69 798 30080 | Fax +49 69 798 33910
info@safe-frankfurt.de | www.safe-frankfurt.de

1. If you are working on a computer where (SNL) "Market Intelligence" Excel Add-In is not installed, you first need to download the Add-In. Go to www.snl.com.

- Log in with your SNL account
- If you are a researcher or Ph.D. student at Goethe University Frankfurt and do not yet have a "Market Intelligence" account, you can request an account by writing an email to: datacenter@safe.uni-frankfurt.de

2. Click on “Apps” in the upper right-hand corner and click on “Market Intelligence Office Download”

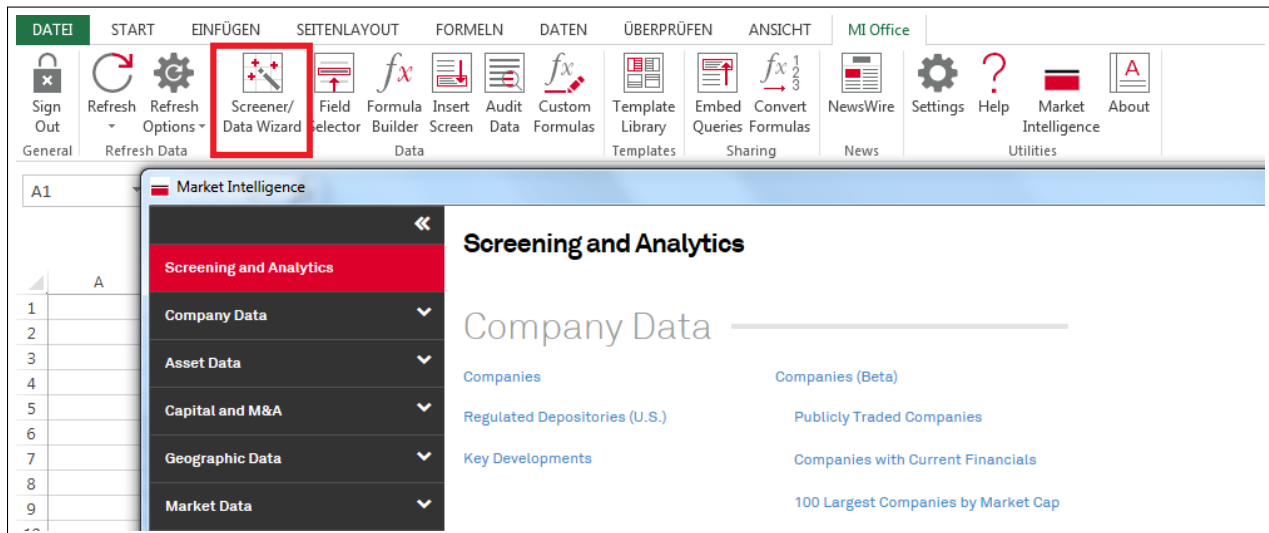

The screenshot shows the S&P Global Market Intelligence website. The top navigation bar includes 'S&P Global Market Intelligence' and a search bar. Below the navigation bar, there are several dropdown menus: 'Apps', 'News', 'Dashboards', 'Research', 'Markets & Deals', and 'Industries'. The 'Apps' dropdown menu is open, showing a list of applications. The 'Market Intelligence Office Download' option is highlighted with a yellow box. Other options in the 'Apps' menu include 'S&P Capital IQ Platform', 'Leveraged Commentary & Data (LCD)', 'Supply Chain Intelligence (Panjiva)', 'Briefing Book', 'Maps', 'Peer Analytics', 'Custom Report Builder(Classic)', 'Report Builder', and 'Screener'. The 'Dashboards' menu is also open, showing options like 'Market Intelligence Office Download', 'Market Intelligence Mobile iOS App', 'Excel Template Library', 'Events Calendar', 'Launch Streaming Transcripts', 'RSS Feeds', and 'Insurance Stat Select-a-Page'. The main content area features a 'Chart Builder (Beta)' section and an 'Equity Movers' section with a table of equity gainers.

SYMBOL-EXCHA...	COMPANY	PRICE	DAILY CHG	DAILY CHG %
ETE-ATH	NBG	€ 1,15	0,04	3,70
TPEIR-ATH	Piraeus Bank	€ 0,80	0,02	3,15

3. Install the "Market Intelligence" Add-In, open Excel, then click on the "MI Office" tab and Sign-in.

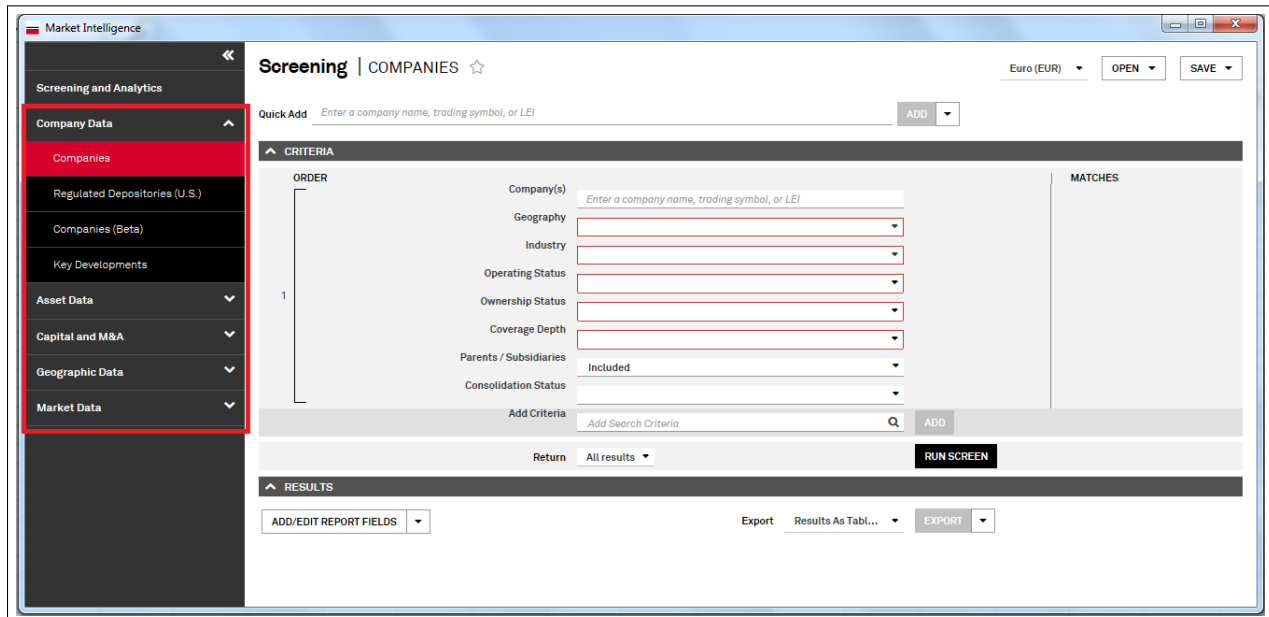

4. The easiest way to obtain data from Market Intelligence via Excel is the “Data Wizard”. Click on the “Data Wizard” button.

4. A new window opens. Market Intelligence classifies data in five broad categories (left menu bar).

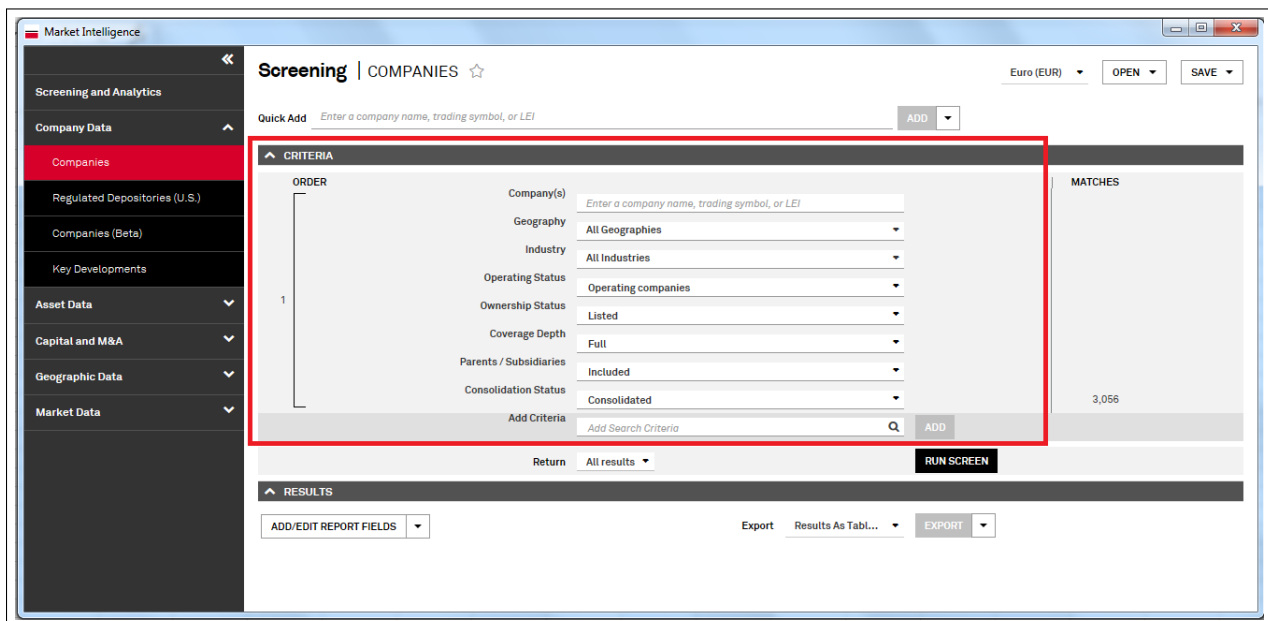

- Company Data
- Asset Data
- Capital and M&A
- Geographic Data
- Market Data

⇒ Example here: Company Data–Companies

5. Select the companies for which you want to obtain data.

- Market Intelligence offers eight default screening criteria for the sample construction.
 - (a) Company(s): Enter individual companies manually
 - (b) Geography: United States and Canada, Europe, Asia-Pacific, Middle East, Latin American and Caribbean, Africa (and sub-categories for each region)
 - (c) Industry: Banking, Insurance, Securities & Investments, Specialty Finance, Financial Technology (and sub-categories for each industry)
 - (d) Operating Status: Operating companies, Acquired/Defunct
 - (e) Ownership Status: Listed, Non-Listed
 - (f) Coverage Depth: Full, Summary
 - (g) Parents / Subsidiaries: Included, Excluded
 - (h) Consolidation Status: Consolidated, Unconsolidated

6. Select the companies for which you want to obtain data. (continued)

- You can also define your own customized screening criteria by clicking on “Add Search Criteria”
⇒ Example here: European companies with more than 100 billion Euro in Total Assets in 2016.

The screenshot shows a web interface for defining search criteria. On the left, a list of criteria is shown with a vertical line indicating a sequence. The criteria include: Company(s), Geography (Europe), Industry (All Industries), Operating Status (Operating companies), Ownership Status (Listed), Coverage Depth (Full), Parents / Subsidiaries (Included), and Consolidation Status (Consolidated). A custom criterion is added and highlighted with a red box: "Total Assets (2016 YrCurrent/Restated) (€M) > 100". Below the criteria list, there is a search bar with the text "Add Search Criteria" and a magnifying glass icon. To the right, a table shows the number of matches for each criterion: 554 for the first set of criteria and 491 for the custom criterion. At the bottom, there is a "RUN SCREEN" button and a "Return All results" dropdown menu.

ORDER	Criteria	MATCHES
1	Company(s) Geography: Europe Industry: All Industries Operating Status: Operating companies Ownership Status: Listed Coverage Depth: Full Parents / Subsidiaries: Included Consolidation Status: Consolidated	554
2	Total Assets (2016 YrCurrent/Restated) (€M) > 100	491

7. Select the variables on which you want to obtain data.

- Click on “Add Edit Report Fields”. A new window opens.

The screenshot shows a web interface for defining search criteria. At the top, there is a header 'CRITERIA' with an expand/collapse arrow. Below this, a table-like structure is used to define criteria. The first row, labeled '1', contains various filter options: 'Company(s)' (text input), 'Geography' (dropdown: Europe), 'Industry' (dropdown: All Industries), 'Operating Status' (dropdown: Operating companies), 'Ownership Status' (dropdown: Listed), 'Coverage Depth' (dropdown: Full), 'Parents / Subsidiaries' (dropdown: Included), and 'Consolidation Status' (dropdown: Consolidated). To the right of these filters is a 'MATCHES' column showing the count of results for each row: 554 for the first row and 542 for the second row. The second row, labeled '2', has a close icon (X) and a criteria description: 'Criteria Total Assets [2016 Y(Current/Restated)] (Reported) > 100'. Below the criteria table, there is an 'Add Criteria' section with a search input field containing 'Add Search Criteria', a search icon, and an 'ADD' button. A 'Return' dropdown menu is set to 'All res...'. A 'RUN SCREEN' button is located at the bottom right of the criteria section. Below the criteria section, a header 'RESULTS (542)' is visible. At the bottom left, a button labeled 'ADD/EDIT REPORT FIELDS' is highlighted with a red rectangular box. To its right, there are 'Export' and 'Results As T...' options, and an 'EXPORT' button.

ORDER	Criteria	MATCHES
1	Company(s) <input type="text" value="Enter a company name, trading symbol, or LEI"/> Geography <input type="text" value="Europe"/> Industry <input type="text" value="All Industries"/> Operating Status <input type="text" value="Operating companies"/> Ownership Status <input type="text" value="Listed"/> Coverage Depth <input type="text" value="Full"/> Parents / Subsidiaries <input type="text" value="Included"/> Consolidation Status <input type="text" value="Consolidated"/>	554
2	<input type="text" value="X"/> Criteria Total Assets [2016 Y(Current/Restated)] (Reported) > 100	542

ADD/EDIT REPORT FIELDS

Export Results As T... EXPORT

8. Select the variables on which you want to obtain data. (continued)

- Market Intelligence classifies data into broad data categories (left hand menu)
- Each category contains several sub-categories and each sub-category multiple data items.

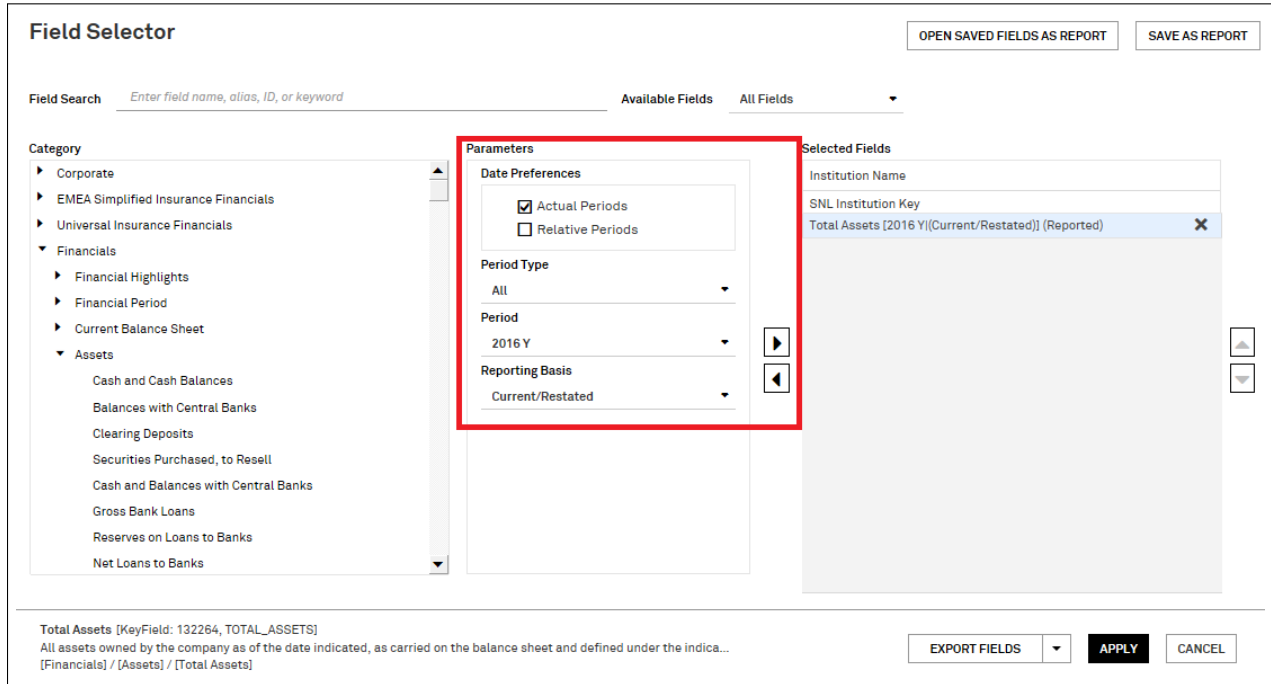

⇒ Example here:

- Category: Financials
 - Sub-category: Assets
 - Data Item: Total Assets
- You can also use the “Field Search” bar on top to search for specific data items.

The screenshot displays the 'Field Selector' interface. At the top, there are two buttons: 'OPEN SAVED FIELDS AS REPORT' and 'SAVE AS REPORT'. Below these is a 'Field Search' bar with the placeholder text 'Enter field name, alias, ID, or keyword'. The main area is divided into three sections: 'Available Fields', 'Parameters', and 'Selected Fields'. The 'Available Fields' section is further divided into 'Category' and 'Parameters'. The 'Category' section is highlighted with a red box and shows a tree view with 'Financials' expanded to 'Assets', where 'Total Assets' is selected. The 'Parameters' section includes 'Date Preferences' (with 'Actual Periods' checked), 'Period Type' (set to 'All'), 'Period' (set to '2016 Y'), and 'Reporting Basis' (set to 'Current/Restated'). The 'Selected Fields' section shows a list of fields, with 'Total Assets [2016 Y|(Current/Restated)] (Reported)' selected. At the bottom, there is a summary for 'Total Assets' and three buttons: 'EXPORT FIELDS', 'APPLY', and 'CANCEL'.

9. Select data parameters. For time-varying variables you need to specify several parameters.

- Date Preferences: Actual Dates, Relative Dates
- Period Type: All, Year, Quarter, YTD, LTM, Interim
- Period: Choose date range
- Reporting basis: Current/Restated, Originally Reported

10. You will get redirected to the original menu. Click “Run Screen” to access the data.

- The data will appear at the bottom of the screen.

The screenshot displays a web-based financial screening tool. At the top, the 'CRITERIA' section is active, showing a list of search filters. The first criterion is selected, and its filters are: Company(s) (text input), Geography (Europe), Industry (All Industries), Operating Status (Operating companies), Ownership Status (Listed), Coverage Depth (Full), Parents / Subsidiaries (Included), and Consolidation Status (Consolidated). The 'MATCHES' column shows 554 results for this criterion. A second criterion is partially visible: 'Total Assets [2016 Y](Current/Restated)] (Reported) > 100', with 542 matches. Below the criteria list, there is an 'ADD' button and a search input field. A 'RUN SCREEN' button is highlighted with a red box. The 'RESULTS (542)' section is visible below, featuring an 'EXPORT' button and a 'SHOW 2,500 RECORDS' control. A table of results is shown with columns for 'INSTITUTION NAME', 'SNL INSTITUTION KEY', and 'TOTAL ASSETS 2016 Y CURRENT/RESTATED (REPORTED)'. The table lists four institutions: 'Bank "Saint-Petersburg" PJSC' (580,287,520), '«ASYL-INVEST» JSC' (894,447), 'AachenMünchener Lebensversicherung AG' (45,394,786), and 'AachenMünchener Versicherung AG' (2,446,278).

INSTITUTION NAME	SNL INSTITUTION KEY	TOTAL ASSETS 2016 Y CURRENT/RESTATED (REPORTED)
"Bank "Saint-Petersburg" PJSC	4238385	580.287.520
«ASYL-INVEST» JSC	6196276	894.447
AachenMünchener Lebensversicherung AG	4341080	45.394.786
AachenMünchener Versicherung AG	4345177	2.446.278

11. You can now export the data into Excel. Click “Export Results”.

- You can choose between different data layouts: Entities Down Column, Entities Across Row, Periods Down Column, Periods Across Row.
- Note: For panel data analysis in e.g. Stata, Periods Down Column is the most convenient layout.

The screenshot displays a software interface for financial data screening, divided into two main sections: CRITERIA and RESULTS (542).

CRITERIA Section:

- ORDER:** A vertical list of criteria items, with '1' next to the first item.
- Company(s):** Input field with placeholder text: "Enter a company name, trading symbol, or LEI".
- Geography:** Dropdown menu set to "Europe".
- Industry:** Dropdown menu set to "All Industries".
- Operating Status:** Dropdown menu set to "Operating companies".
- Ownership Status:** Dropdown menu set to "Listed".
- Coverage Depth:** Dropdown menu set to "Full".
- Parents / Subsidiaries:** Dropdown menu set to "Included".
- Consolidation Status:** Dropdown menu set to "Consolidated".
- MATCHES:** A column on the right showing the number of matches for each criterion: 554 for the first criterion and 542 for the second.
- Criteria 2:** "Total Assets [2016 Y](Current/Restated) (Reported) > 100".
- Add Criteria:** "Add Search Criteria" with a search icon and an "ADD" button.
- Return:** "All res..." with a dropdown arrow.
- RUN SCREEN:** A black button with white text.

RESULTS (542) Section:

- ADD/EDIT REPORT FIELDS:** A dropdown menu.
- Export Results As T...:** A dropdown menu with "EXPORT" selected and highlighted by a red box.
- EXPORT Menu:** A dropdown menu with four options: "Entities Down Column", "Entities Across Row", "Periods Down Column", and "Periods Across Row". This menu is also highlighted by a red box.
- SHOW 2,500 RECORDS:** A dropdown menu for the number of records to display.
- Table:** A table with the following columns:

<input type="checkbox"/>	INSTITUTION NAME	SNL INSTITUTION KEY	TOTAL ASSETS 2016 Y CURRENT/RESTATED (REPORTED)
<input type="checkbox"/>	"Bank "Saint-Petersburg" PJSC	4238385	580.287.520
<input type="checkbox"/>	«ASYL-INVEST» JSC	6196276	894.447
<input type="checkbox"/>	AachenMünchener Lebensversicherung AG	4341080	45.394.786
<input type="checkbox"/>	AachenMünchener Versicherung AG	4345177	2.446.278

12. After you have clicked “Export Results”, Market Intelligence will export the data into the Excel sheet from which you have initiated the Data Wizard (make sure it is an empty sheet).

The screenshot shows an Excel spreadsheet with the following data:

	A	B	C	D	E	F
1	SNLTable					
2				Institution Name	SNL Institution Key	Total Assets (Reported)
